5:45	Cruisers
6:00	Dinner Dishland, Green Team
7:00	Group Time
7:15	Council Fire
9:00	Back to cabins, goodnight!

An opportunity to do something active before breakfast!

We share responsibilities in our community by taking turns to 'cruise' (setting the table before a meal) to do 'dishland' (doing the dishes after a meal), and to learn about our compost through Green Team.

We collaborate with our clients to customize programs to meet their needs. We offer a variety of activity blocks focusing on leadership development and environmental education.

Time to check in with everyone in the group about how the day is going, or to play a game!

Students can choose one of several options to pursue in this afternoon block.

Other activities include hiking, ecosystem and impact exploration, outdoor survival, raft building, and more.

Mealtimes are lively in the eating lodge. Students eat healthy, child-friendly offerings, served family-style, sing songs, and receive awards from peers, recognizing daily growth.

An evening activity, different each night, brings the whole community together. On the last night a closing fire allows students time to reflect on and celebrate their learning.
